

Pocket money

This year we are not providing you service of lunch and dinner. Unlike the area of Hotel Slavia this year there are not so many options in close surrounding of Top Hotel Prague. Anyway there is an option right in the area of the hotel to have a good meal.

It is always better to have cash so you can use it in small stores but usually in most of the stores you can pay by **credit card**. All supermarkets and modern shops accept variety of credit cards.

Average **dinner at lower-class restaurant** in Prague 10 is around **€10** with drink. If you will eat there every day it means approximately **€70** for dinners. McDonald's menu is **€8** so you can save **€130 for meal** overall the whole week. You can eat in **24/7 KFC** around 8 minutes walk from hotel.

Many people were also comfortable with shopping in Tesco and then eat sandwiches or instant noodles. This time we are not in close range of 24/7 Tesco but there is small **convenient store** close to main hotel entrance which is open from 7:00 to 20:00 every day. It is way cheaper and you can make everything at the hotel.

In walking distance (around 15 minutes walk from hotel) there is one of the biggest **shopping malls** in Prague called **OC Chodov**. It has supermarket, different stores, cinema and other entertainment.

Public transportation for 90 minutes anywhere **costs €1,20**.

We recommend to have **€250** to have brilliant week full of luxury.

In case you want to do some traveling around Prague before or after event, you need at least **€50 per day** for travel card, whole day meal and souvenirs.

Attention: In Czech republic you cannot pay by Euros. You need to change your money to „Czech koruna“ to be able to operate and be able to buy stuff. The easiest is to change Euros (€), but you will be able to change US dollars (\$) or British pounds (£) easily.
